Bharath Institute of Higher Education and Research (BIHER) is a multi-stream and multi-cultural university, providing high quality education to students from around the world. It is functioning in a sprawling area of 305 acres of land located in 6 Campuses in Tamil Nadu and Puducherry, with the state of the art infra-structure facilities.

Sri Lakshmi Ammal Educational Trust was established with a visionary mission to revolutionize higher education in Tamil Nadu. In 1984, under the dynamic leadership of Dr. S. Jagathrakshakan, the Trust founded the Bharath Institute of Science and Technology (BIST), marking a historic milestone as the first self-financing engineering college in the state. This pioneering initiative laid the foundation for the Trust's subsequent ventures in medical and allied health sciences education.

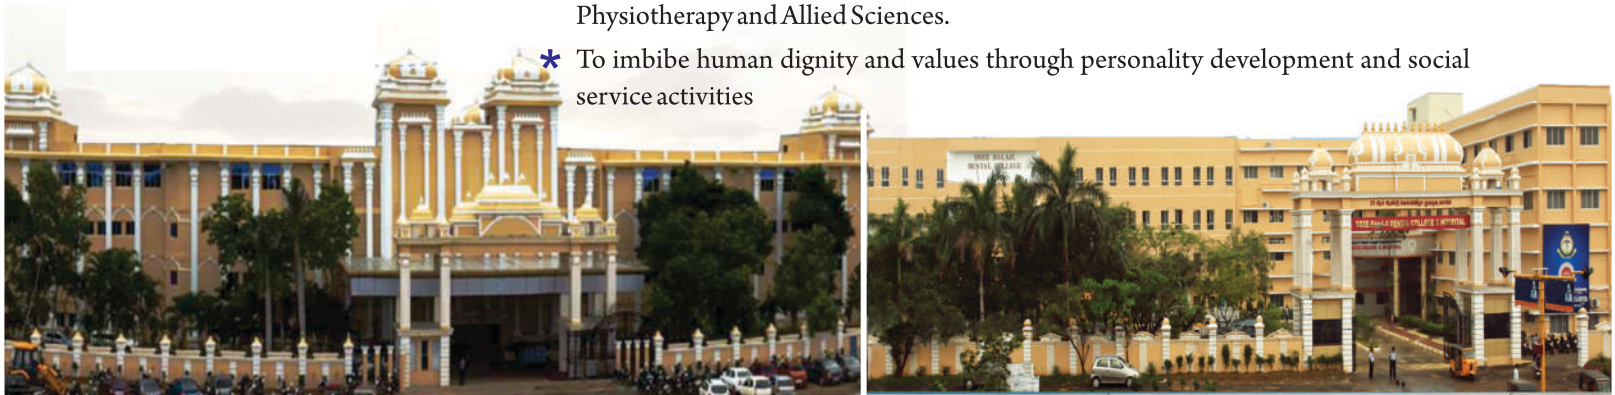

Building on its commitment to excellence, the Trust established Sree Balaji Dental College and Hospital in 1989. The institution quickly rose to prominence and in July 2002, was granted the status of a Deemed to be University by the Ministry of Human Resource Development (MHRD), Government of India, under Section 3 of the UGC Act, 1956. This recognition heralded the inception of the Bharath Institute of Higher Education and Research (BIHER), which became the umbrella organization for a growing network of esteemed institutions.

BIHER is now one among the top universities of India to get 'A' status by National Assessment and Accreditation Council - NAAC and has been ranked within top 100 university among universities in India by NIRE, Govt. of India for the past 8 years creating a progressive environment for next generation innovators, researchers and leaders.

Our Vision Our Mission

"Bharath Institute of Higher Education & Research (BIHER) envisions and constantly strives to provide an excellent academic and research ambience for students and members of the faculties to inherit professional competence along with human dignity and transformation of community to keep pace with the global challenges so as to achieve holistic development."

- * To develop as a Premier University for Teaching, Learning, Research and Innovation on par with leading global Universities.
- * To impart education and training to students for creating a better society with ethics and morals.
- * To foster an interdisciplinary approach in education, research and innovation by supporting lifelong professional development, enriching knowledge banks through scientific research, promoting best practices and innovation, industry driven and institute-oriented cooperation, globalization and international initiatives.
- * To develop as a multi-dimensional institution contributing immensely to the cause of societal advancement through spread of literacy, an ambience that provides the best of international exposures, provide health care, enrich rural development and most importantly impart value-based education.
- * To establish benchmark standards in professional practice in the fields of innovation and emerging areas in Engineering, Management, Medicine, Dentistry, Nursing, Physiotherapy and Allied Sciences.
- * To imbibe human dignity and values through personality development and social service activities

Sree Balaji Institute of Science and Technology

Chromepet, Chennai

Sree Balaji Institute of Science and Technology (SBIST), a constituent institution of Bharath Institute of Higher Education and Research, stands as a progressive centre for excellence in engineering, technology, and applied sciences. Located in Chennai, SBIST is committed to nurturing future-ready professionals through a blend of academic rigor, innovation, and industry-oriented learning. With highly qualified faculty, state-of-the-art laboratories, and a dynamic curriculum, the institute offers a wide spectrum of undergraduate and professional programmes in core engineering disciplines, computing, and management studies. The academic framework emphasizes practical exposure,

research orientation, and skill development to meet the demands of an evolving global landscape. As part of BIHER—an institution with over four decades of academic excellence, strong research output, global collaborations, and prestigious accreditations—SBIST benefits from a rich academic ecosystem that fosters interdisciplinary learning, innovation, and entrepreneurship. The institute aims to produce competent engineers and professionals equipped with technical expertise, ethical values, and leadership qualities, empowering them to contribute effectively to society and industry.

Empowering Innovation, Inspiring Excellence.

JR Faculty of Allied Health Sciences

JR College of Engineering and Technology

Tindivanam

JR College of Engineering and Technology, Tindivanam, is a progressive and forward-looking institution committed to delivering high-quality technical education. Established under the prestigious Bharath Institute of Higher Education and Research, the college aims to create industry-ready engineers equipped with strong technical knowledge, ethical values, and innovative thinking.

Strategically located in Tindivanam, the institution offers a serene academic environment conducive to learning, research, and overall personality development.

Vision : To be a center of excellence in engineering education, fostering innovation, research, and leadership to meet global technological challenges.

Mission :

- To impart quality technical education with a strong foundation in engineering principles
- To promote research, innovation, and entrepreneurship
- To nurture socially responsible and ethically sound professionals
- To collaborate with industries for practical exposure and career readiness

Academic Programs

The college offers undergraduate engineering programs designed in line with current industry demands and emerging technologies.

Backed by the academic excellence of Bharath Institute of Higher Education and Research Industry - aligned curriculum with practical exposure Focus on innovation, research and skill development, Supportive learning environment with modern infrastructure, Commitment to shaping future engineers and leaders Shaping Future Engineers with Excellence and Innovation.

S.No	Programmes	Eligibility	Duration Years	Intake Seats	Fee Per Academic year
1	B.E. Computer Science with minors in Artificial Intelligence/Data Science Cyber Security/Internet of things Machine Learning	For Indian Boards: Pass in (10+2) from CBSE/HSC/ISC/NIOS or equivalent examination with subjects Mathematics, Physics as compulsory and Chemistry or Computer Science or Biology or any other eligible subjects with an aggregate of 50% of marks in the said subjects. The applicant must follow the Internal admission process. For A Level board: Mathematics, Physics as compulsory and Chemistry or Computer Science or Biology or any other eligible subjects in the 'A' Levels and English at 'AS' Level or Minimum 5 passes at IGCSE/GCSE or GCE 'O' level examinations including English	4	60	1,00,000/-
2	B.E. Information Technology	Minimum requirement is an average of 'B' grade in overall. Candidates are advised to check the minimum grade.	4	60	1,00,000/-
3	B.E. Electronics and Communication Engineering		4	60	1,00,000/-
4	B.E. Civil Engineering	For IB board:	4	60	1,00,000/-
5	B.E. Mechanical Engineering	Mathematics, Physics as compulsory and Chemistry or Computer Science or Biology or any other eligible subjects	4	60	1,00,000/-
6	Bio Medical Engineering	IB Diploma or IB certificate with Average of 4 points in PCM with an overall minimum of 24 points	4	60	1,00,000/-
7	Bachelor of Computer Applications - BCA		3	120	60,000/-
8	Bachelor of Business Administration - BBA	Minimum 3 subjects in HL and 3 subjects in SL	3	120	60,000/-

Note:

- (i) Direct admission: subject to availability of seats
- (ii) LATERAL ENTRY admission to Second year B.Tech. Programmes are also considered.

JR College of Agricultural Sciences

JR College of Agricultural Sciences, a constituent institution of Bharath Institute of Higher Education and Research, is dedicated to advancing agricultural education, research, and sustainable farming practices. The college serves as a hub for cultivating skilled agricultural professionals equipped to address the challenges of modern agriculture and food security. With a strong emphasis on experiential learning, the institution offers comprehensive programmes in agricultural sciences, integrating classroom teaching with hands-on field training, crop research, and exposure

to modern agri-technologies. The curriculum is designed to bridge traditional agricultural knowledge with contemporary innovations such as precision farming, biotechnology, and sustainable resource management. Supported by experienced faculty, well-equipped laboratories, research farms, and extension activities, students gain practical insights into crop production, soil science, plant protection, agribusiness, and rural development. The institution also promotes entrepreneurship and agri-startups, preparing graduates to become job creators as well as skilled professionals. As part of BIHER's vibrant academic ecosystem, JR College of Agricultural Sciences fosters interdisciplinary learning, innovation, and community engagement, contributing to rural upliftment and national agricultural growth.

Cultivating Knowledge, Growing the Future.

Sree Balaji Faculty of Allied Health Sciences

About the Institution

Sree Balaji Medical College and Hospital was established in the academic year 2003–2004 with the vision of providing quality medical education. Managed by the Sri Lakshmi Ammal Educational Trust (established in 1984), the institution became part of Bharath Institute of Higher Education and Research in 2004.

The Faculty of Allied Health Sciences, SBMCH is a premier multispecialty hospital & center for healthcare education, offering diverse programs that combine strong academic foundations with hands-on clinical training. With experienced faculty, modern laboratories, and real-time hospital exposure, students are well-prepared to meet the evolving demands of the healthcare sector from the early stages of their education.

As defined by National Commission for Allied and Healthcare Professions, allied health professionals play a vital role in supporting diagnosis, treatment, and patient care through specialized technical expertise.

The Faculty of Allied Health Sciences at Sree Balaji Medical College and Hospital is committed to excellence in healthcare education through innovation, clinical exposure, and holistic development. It strives to nurture skilled and compassionate professionals equipped with strong technical expertise and ethical values, enabling them to contribute meaningfully to healthcare through lifelong learning and continuous advancement.

Why Choose Us?

- State-of-the-art laboratories and simulation facilities
- Clinical training in a multi-specialty hospital
- Experienced and dedicated faculty
- Competency based curriculum as per NCAHP
- Emphasis on research and innovation
- Excellent career opportunities in India and abroad

Facilities

- ▶ Advanced Diagnostic Labs
- ▶ Modern Operation Theatres
- ▶ Simulation & Skill Labs
- ▶ Digital Library & Learning Resources

Course Highlights

- ▶ Comprehensive theoretical and practical training
- ▶ Exposure to modern medical equipment and technologies
- ▶ Internship and clinical postings in hospital departments
- ▶ Skill-based learning with patient interaction
- ▶ Continuous assessment and mentoring

Anaesthesia & Operation Theatre Technology

Duration: 4 Years (3 Years + 1 Year Internship)

Anaesthesia & Operation Theatre (OT) Technologists play a vital role in surgical care, supporting both planned and emergency procedures.

They are responsible for preparing operation theatres, managing surgical equipment, and assisting anaesthetists and surgeons to ensure safe and efficient patient care. They handle

OT setup, patient movement, sterilization processes, and equipment management across various specialties such as General Surgery, Cardiology, Orthopaedics, and Obstetrics & Gynaecology.

Blood Bank Technology

Duration: 4 Years (3 Years + 1 Year Internship)

Blood Bank Technology focuses on the collection, testing, processing, and storage of blood and its components to ensure safe transfusion practices. It plays a vital role in patient care

during surgeries, emergencies, and treatment of various medical conditions. Blood Bank Technologists are responsible for maintaining the quality and compatibility of blood, ensuring adherence to safety standards and protocols.

Biomedical Sciences

Duration: 4 Years (3.5 Years + 6 months Internship)

Biomedical Sciences focuses on studying human biology, diseases, diagnostics, and laboratory based research that supports modern medicine. Biomedical Sciences focuses on understanding human health, diseases, and laboratory diagnostics. It offers opportunities in clinical testing, pathology, microbiology, and genetics labs. It is a versatile field with strong scope in medical, research, and industrial sectors

Cardiac Perfusion Technology

Duration: 4 Years (3 Years + 1 Year Internship)

Cardiac Perfusion Technology is a specialized field focused on operating heart-lung machines during cardiac surgeries. Perfusionists play a critical role in open-heart procedures by maintaining blood circulation and oxygenation when the heart is temporarily stopped. They work closely with cardiac surgeons and anaesthetists, ensuring patient safety through precise monitoring and control of vital parameters. With increasing advancements in cardiac care, this field offers excellent career opportunities in cardiac centers, transplant units, and critical care settings.

Cardiac Technology

Duration: 4 Years (3 Years + 1 Year Internship)

Cardiac Technology is a rapidly growing paramedical field focused on the diagnosis and treatment of heart diseases. Professionals assist cardiologists in procedures such as ECG, TMT, echocardiography, and cardiac catheterization. With the rising prevalence of cardiac conditions, there is strong demand in

hospitals and cardiac care units. Graduates can work as cardiac technologists, cath lab technicians, or cardiac care assistants,

with opportunities in healthcare institutions, research, and medical technology sectors.

Emergency Medical Technologist

Duration: 4 Years (3 Years + 1 Year Internship)

Emergency & Trauma Care Technology prepares professionals to deliver rapid, accurate, and life-saving care in critical situations. As the frontline of healthcare, they play a vital role during the “golden hour,” ensuring timely intervention and improved patient outcomes. This program develops technically skilled, ethically grounded, and patient-centered emergency care professionals who act as a crucial link between accident sites and hospitals, especially in remote and underserved areas.

Medical Laboratory Sciences

Duration: 4 Years (3 Years + 1 Year Internship)

Medical Laboratory Technology involves the analysis of blood, tissues, and body fluids to diagnose diseases and support patient care. Laboratory results play a crucial role, contributing to nearly 60–70% of medical decisions. Medical Laboratory Technologists use advanced scientific techniques and equipment to detect abnormalities and assist clinicians in diagnosis, treatment, and prognosis. As an integral part of the healthcare team, they play a vital role in modern medicine and its continuous advancements.

Medical Record Technology

Duration: 4 Years (3 Years + 1 Year Internship)

Medical Record Technology (MRT) course trains individuals to manage, organize, and secure patient health data, ensuring its accuracy, privacy, and accessibility for clinical, legal, and billing purposes. The scope of this field bridges the gap between patient care and administrative technology.

Optometry

Duration: 5 Years (4Years + 1 Year Internship)

Optometry is an autonomous healthcare profession focused on eye care, including vision testing, correction of refractive errors, and diagnosis of eye diseases. Optometrists play a key role in improving vision and preventing visual impairment. As primary eye care providers, they help detect conditions such as cataract, glaucoma, and diabetic retinopathy, and may identify systemic diseases like hypertension and diabetes. They work closely with ophthalmologists to ensure comprehensive eye care and contribute significantly to the prevention of blindness.

Physician Associates

Duration: 4 Years (3 Years + 1 Year Internship)

Physician Assistants are trained healthcare professionals who work alongside doctors to provide comprehensive patient care. With a strong foundation in general medicine, they support preventive, diagnostic, and therapeutic services across various healthcare settings. They play a vital role in improving access to healthcare, especially in rural and underserved areas, by managing routine cases under physician supervision. As part of a multidisciplinary team, they enhance efficiency in healthcare delivery while ensuring quality and continuity of care.

Medical Radiology and Imaging Technology

Duration: 4 Years (3 Years + 1 Year Internship)

Radiology is a vital branch of medicine that uses imaging technologies and radiation to diagnose, monitor, and treat

diseases. It enables precise, minimally invasive visualization of internal body structures, making it essential across multiple medical specialties. With rapid advancements in imaging techniques, radiology has become a highly specialized field requiring skilled professionals. Medical Imaging Technologists are trained in accurate imaging techniques, radiographic positioning, and exposure, and play a key role in both diagnostic and interventional radiology.

Dialysis Therapy Technology and Dialysis Therapy

Duration: 4 Years (3 Years + 1 Year Internship)

Renal Dialysis Technology focuses on supporting patients with kidney failure by removing waste products and excess fluids from the blood when kidneys are unable to function effectively. Dialysis, including haemodialysis, helps maintain essential body functions and improves patient quality of life, often serving as a life-sustaining treatment or bridge to kidney transplantation. With advancements in technology, this field requires skilled professionals to manage dialysis procedures safely and efficiently.

Respiratory Technology

Duration: 4 Years (3 Years + 1 Year Internship)

Respiratory Care Technology is an essential field focused on the management of patients with acute and chronic breathing disorders. Respiratory therapists play a critical role in ensuring

effective oxygenation and supporting patients with conditions

such as asthma, COPD, and respiratory failure. They work closely with physicians to implement treatment plans, manage ventilators, administer oxygen therapy, and conduct pulmonary diagnostics. As key members of critical care teams, they contribute significantly to emergency care, long-term rehabilitation, and improving patients' quality of life.

Health Information and Management

Offered by Bharath Institute of Higher Education and Research and aligned with healthcare standards, the Health Information Management (HIM) programme prepares students to manage medical data and healthcare systems efficiently.

The course covers medical records management, health informatics, hospital administration, coding & billing, and data analytics.

Students are trained in electronic health records (EHR), healthcare IT systems, and data security practices. The programme integrates clinical knowledge with management and information technology skills. Practical exposure is provided through hospital training and real-time data handling. Graduates play a key role in maintaining accurate patient records and supporting clinical decision-making.

Eligibility (UG): 10+2 with Science stream as per university norms.

Eligibility (PG): Bachelor's degree in relevant discipline.

Career roles include Health Information Manager, Medical Coder, Health Data Analyst, and Hospital Administrator. With digital healthcare expansion, HIM offers a high-demand, technology-driven healthcare career path.

Nutrition Science

B.Sc. Nutrition Science provides foundational knowledge in food science, human nutrition, and diet planning with practical exposure. It prepares students for careers in health and wellness.

Eligibility (B.Sc.): 10+2 with Science (Biology / Chemistry / Home Science preferred) as per norms.

M.Sc. Nutrition Science focuses on advanced clinical nutrition, therapeutic dietetics, and research skills.

Eligibility : Bachelor's degree in Nutrition / Dietetics / Life Sciences or related field.

The curriculum includes clinical training, community nutrition, and laboratory-based learning. Students gain hands-on experience in diet counselling and nutritional assessment. Career roles include Clinical Dietitian, Nutritionist, Public Health Expert, and Research Associate. Opportunities exist in hospitals, wellness centres, NGOs, food industry, and academia. With rising lifestyle diseases, Nutrition Science offers a high-demand, impactful healthcare career.

Behavioural Science

Offered by Bharath Institute of Higher Education and Research, this programme focuses on human behaviour and mental health. It integrates psychology, sociology, counselling, and psychiatric social work. Students are trained in mental health assessment, counselling, and psychosocial interventions. The curriculum emphasizes patient care, rehabilitation, and community mental health. Practical exposure includes hospital training, NGO postings, and fieldwork. Students develop skills in communication, crisis intervention, and case management.

Eligibility (UG): 10+2 in any stream as per norms.

Eligibility (PG): Bachelor's in Social Work / Psychology / related fields.

Career options include Counsellor, Psychiatric Social Worker, Case Manager, and Rehabilitation Specialist.

Admissions

Admissions to the Faculty of Allied Health Sciences at Sree Balaji Medical College and Hospital are conducted as per the norms of Bharath Institute of Higher Education and Research. The application fee is Rs. 1000/- (non-refundable).

The registered Email ID will be used for all official communication, and changes will not be permitted.

Eligibility Criteria

As per the NCAHP guidelines Candidate must have passed Senior Secondary (10+2) or equivalent with Physics, Chemistry & Biology (Botany + Zoology) subjects. Admission on the basis of merit of Senior Secondary (10+2). He/she has completed 17 years of age at the time of admission or will complete that age on or before 31 December of the year of his/her admission to the first year of the Undergraduate Allied and Healthcare Course. Medical fitness certificate is mandatory to submit and it is to be endorsed by Government medical officer.

Selection Process

Selection will be made on the basis of the marks secured by the candidates in the common entrance examination.

Important Dates (Tentative)

Application Start Date	28 th March 2026
Last Date to Apply	15 th June 2026
Entrance Exam date	22 th June 2026
Counselling & Interview	2 nd week - July 2026
Commencement of Classes	August 2026

*The mentioned dates are tentative and might subject to change

Note : Eligibility criteria for admission and program duration, may be updated from time to time, based on the recommendations and guidelines released by the National Commission for Allied and Healthcare Professions (NCAHP) and other regulatory/statutory bodies.

Apply early to secure your place in a rewarding healthcare career and begin your journey in health care excellence.

B.O.T (Bachelor of Occupational Therapy)

The Sree Balaji Faculty of Occupational Therapy is a dynamic academic unit dedicated to nurturing competent, compassionate, and innovative occupational therapy professionals. Functioning under the esteemed umbrella of Bharath Institute of Higher Education and Research, the faculty is committed to excellence in education, clinical practice, research, and community engagement.

Occupational Therapy is a vital healthcare profession focused on enabling individuals of all age groups to achieve independence and improve their quality of life through therapeutic interventions. The faculty emphasizes a holistic, patient-centered approach, addressing physical, psychological, developmental, and social challenges.

The curriculum is designed in alignment with contemporary global standards, integrating strong theoretical foundations with extensive hands-on clinical training. Students gain exposure through multidisciplinary hospital settings, rehabilitation

centers, and community outreach programs, ensuring real-world competence and confidence.

Key highlights of the faculty include:

Experienced and dedicated faculty members with strong academic and clinical expertise
 Well-equipped laboratories for functional assessment, sensory integration, and rehabilitation techniques
 Comprehensive clinical training in collaboration with tertiary care hospitals
 Research-oriented learning environment encouraging innovation and evidence-based practice
 Community-based rehabilitation initiatives promoting social responsibility and inclusivity.

Empowering lives through Meaningful care

Faculty of Pharmacy

SBMCH

Students in a pharmacy college learn about:

- Drug formulation and development
- Dosage and administration of medicines
- Drug interactions and side effects
- Patient counseling and healthcare support

Pharmacy education usually includes both theoretical knowledge and practical training through laboratory work and internships in hospitals or pharmaceutical industries.

Objectives

- To produce competent and ethical pharmacists
- To promote research in drug development and healthcare
- To ensure safe and effective use of medicines in society
- To support the healthcare system through professional services

Career Opportunities

- Graduates in Pharmacy can work as:
- Pharmacists in hospitals and Community pharmacies
- Drug inspectors and Regulatory officers
- Researchers in pharmaceutical industries
- Medical representatives and healthcare advisors
- Drug safety officers/Pharmaco Vigilance expert/ Clinical Pharmacist.

Sree Balaji College of Pharmacy is an educational institution dedicated to the study of medicines, their preparation, dispensing, and safe use. It plays a vital role in the healthcare system by training students to become qualified pharmacists who contribute to patient care and public health.

Sree Balaji College of Pharmacy focuses on teaching the science and practice of pharmacy, combining subjects from Pharmaceutical Sciences, Chemistry, Biology, and Pharmacology. These colleges aim to develop skilled professionals who can understand drug composition, manufacture medicines, and ensure their proper usage.

FACULTY OF PHARMACY

S.No	Pharmacy Courses	Duration	Annual Fee

2	B. Pharm	4 YEARS	1,50,000/-
3	M.Pharm (Pharmacology)	2 YEARS	1,00,000/-

Sree Balaji College of Nursing

Sree Balaji College of nursing is an educational institution that provides professional training and education in the field of nursing, which is an essential part of the healthcare system. Nursing college prepare students to become qualified nurses who can care for individuals, families, and communities in hospitals, clinics, and other

healthcare settings. These colleges offer various programs such as B.Sc Nursing, Post Basic B.Sc Nursing, and M.Sc Nursing. The curriculum includes both theoretical knowledge and practical training in areas like anatomy, physiology, microbiology, nutrition, pharmacology, and patient care. Nursing colleges are equipped with laboratories, simulation centers, and affiliated hospitals where students gain hands-on experience. The training focuses on developing clinical skills, critical thinking, communication, and compassion. The main aim of a nursing college is to produce skilled, responsible, and ethical healthcare professionals who can contribute to improving public health and patient well-being.

SREE BALAJI COLLEGE OF NURSING

Sree Balaji College of Physiotherapy

Pallikaranai

Sree Balaji Faculty of Physiotherapy

Chromepet

Bachelor of Physiotherapy (BPT) is a professional undergraduate program in the field of Physiotherapy that focuses on improving physical movement, function, and overall quality of life. It is a healthcare course designed to train students in the assessment, diagnosis, and treatment of physical disabilities, injuries, and disorders.

Physiotherapy uses non-invasive methods such as therapeutic exercises, manual therapy, electrotherapy, and rehabilitation techniques to restore mobility and reduce pain. BPT graduates play an important role in helping patients recover from conditions like fractures, sports injuries, neurological disorders, and post-surgical complications.

The course usually spans for 5 years, including mandatory internship. During this period, students study subjects such as anatomy, physiology, biomechanics, pathology, and rehabilitation sciences, along with hands-on clinical training.

After completing BPT, graduates can work in hospitals, rehabilitation centers, sports clinics, fitness centers, or pursue higher studies like Master of Physiotherapy (MPT). Physiotherapy is a growing field in the healthcare sector with increasing demand due to rising awareness about physical health and rehabilitation.

In short, BPT is an ideal course for students interested in healthcare, patient care, and helping people regain their independence through physical therapy.

PHYSIOTHERAPY

Sree Balaji Faculty of Audiology and Speech Language Pathology

Scope of the Field

Early identification and intervention in children with speech or hearing problems

Rehabilitation for adults with stroke, brain injury, or voice disorders

Management of hearing impairment using hearing aids and therapy

Treatment of stuttering, articulation problems, and language delays

Audiology and Speech-Language Pathology play a vital role in enhancing quality of life by helping individuals communicate effectively, maintain social relationships, and achieve academic and professional success.

ASLP is a growing and essential healthcare profession dedicated to improving hearing, speech, and communication abilities across all age groups.

Eligibility

As per RCI - Norms

The Faculty of Audiology and Speech-Language Pathology at Sree Balaji Medical College and Hospital is affiliated with Bharath Institute of Higher Education and Research (BIHER). The faculty is fully compliant with statutory requirements, holding RPWD certification for clinical services and State Government NOC to offer the program, and is equipped with modern infrastructure and experienced faculty to support quality education and clinical training.

The faculty functions as part of the internationally recognized Cleft & Craniofacial Center, with state-of-the-art facilities. Since 2023, the centre has served as a clinical training site for B. ASLP interns from institutions across South India, reflecting its commitment to excellence in education, clinical services, and research collaboration.

FACULTY OF AUDIOLOGY AND SPEECH LANGUAGE PATHOLOGY

S.No	B. ASLP Courses	Duration	Annual Fee

Sree Balaji Faculty of Clinical Psychology

M.A. Clinical Psychology – RCI Regulated Programme offers a future-ready pathway for aspiring mental health professionals, combining rigorous academic training with intensive clinical exposure in a tertiary care teaching hospital setting. This programme is designed to develop competent, ethical, and skilled clinical practitioners through a strong emphasis on real-time case exposure, supervised assessments, psychotherapy training, and evidence-based practice. Students benefit from a dynamic learning environment that integrates classroom teaching with hands-on experience in Psychiatry, Neurology, Pediatric, Inpatient wards, and counseling services, ensuring the development of diagnostic expertise, therapeutic skills, and professional confidence.

Programme Highlights

- Duration: 2 Years
- RCI-Aligned Curriculum & Training
- Integrated Academic + Clinical Training Model
- Hands-on Clinical Exposure: various opd and wards & counseling units
- Research-Focused Learning: Dissertation & evidence-based practice
- Skill-Oriented, Case-Based Approach

Clinical Training Excellence

Students gain extensive hands-on experience through:

- Supervised psychological assessments
- Psychotherapy and counseling sessions
- Multi disciplinary case discussions
- Community mental health outreach programmes

This intensive training fosters diagnostic expertise, therapeutic competence, and professional confidence.

Eligibility Criteria (Entry Requirements)

Pathway 1: 4-Year Undergraduate Degree

- B.A./B.Sc. in Psychology (4-year programme)
- Minimum 55% aggregate marks
- From a UGC-recognized university

Pathway 2: 3-Year Degree + Bridge Requirement

- B.A./B.Sc. in Psychology (3-year programme) PLUS Completion of a 1-year Bridge Course in Psychology

OR

Completion of 1st year of M.A./M.Sc. Psychology

- Minimum 55% marks required

Core Learning Areas

- Psychopathology & Mental Disorders
- Psychological Assessment & Testing
- Counseling & Psychotherapy
- Neuropsychology & Behavioral Sciences
- Research Methodology & Biostatistics
- Community Mental Health & Rehabilitation

Career Pathways

Graduates can pursue roles such as:

- Clinical Psychologist
- Mental Health Counselor
- Rehabilitation Specialist
- Research Associate
- Academic Professional

FACULTY OF CLINICAL PSYCHOLOGY, SBMCH

S.No	Psychology Courses	Duration	Annual Fee
1	MA in Clinical Psychology-RCI Regulated Programme (In place of present M.Phil. Clinical Psychology)-RCI Regulated Programme	2 Years	10,00,000/-
1	B.Sc. in Clinical Psychology (Hons)	4 Years	2,00,000/-

The Faculty of Medical Radiation Sciences at Sree Balaji Medical College and Hospital stands at the forefront of modern healthcare education, offering cutting-edge training in diagnostic and therapeutic technologies that are vital to contemporary medical practice.

Faculty of Medical Radiation Sciences

With rapid advancements in imaging and radiation-based treatment, this faculty is dedicated to producing highly skilled professionals who play a crucial role in disease diagnosis, treatment planning, and patient care. The programs are designed with a perfect blend of academic excellence, hands-on clinical exposure, and technological proficiency, aligned with global healthcare standards.

Courses Offered

Nuclear Medicine Technology

This program focuses on the use of radioisotopes in diagnosis and therapy, equipping students with expertise in PET-CT, SPECT imaging, and radionuclide procedures. Students gain hands-on experience in handling sophisticated nuclear imaging systems and ensuring radiation safety.

Medical Radiology & Imaging Technology

A comprehensive program that trains students in diagnostic imaging modalities such as X-ray, CT scan, MRI, and Ultrasound. Emphasis is placed on image

acquisition, patient positioning, radiation protection, and interpretation support.

Radiotherapy Technology

This program prepares students to become key members of oncology teams by training them in radiation therapy techniques, treatment planning, dosimetry, and operation of advanced equipment such as linear accelerators, HDR After Loader, Brachy Therapy & CT Simulator.

KEY HIGHLIGHTS

- State-of-the-art imaging and radiation therapy facilities
- Clinical training in a multi-specialty teaching hospital
- Experienced faculty and industry-aligned curriculum
- Emphasis on radiation safety and patient care
- Hands-on exposure to advanced equipment (CT, MRI, PET-CT, LINAC)
- Interdisciplinary learning with medical and allied health sciences.

CAREER OPPORTUNITIES

Graduates of the Faculty of Medical Radiation Sciences are highly sought after in:

- Multi-specialty hospitals
- Diagnostic imaging centers
- Cancer treatment centers
- Nuclear medicine departments
- Research institutions and healthcare technology industries
- RadioTherapy department / Treatment Centre
- Radiology Department / Scan Centre

FACULTY OF MEDICAL RADIATION SCIENCES

S.No	Radiation Sciences	Duration	Annual Fee
1	B.Sc. Nuclear Medicine Technology (NMT)	4 Years	1,50,000/-
2	B.Sc, Medical Radiology and Imaging Technology (MRIT)	4 Years	1,25,000/-
3.	B.Sc, RadioTherapy Technology (RTT)	4 Years	1,00,000/-
4.	M.Sc., Medical Physics	3 Years	1,50,000/-

INSTRUCTIONS TO THE CANDIDATES

1. ELIGIBILITY FOR COMMON ENTRANCE EXAMINATION
